wise man, after many years of unrecorded usefulness or of retirement to private life, is now an old man of into political prominence by the same guiding providence. Three great cabinet officers were placed over the one hundred and twenty provinces, and of these Daniel was the chief.

But the higher one climbs the fiercer the storms, and Daniel felt their full force. He was a Jew, a foreigner, exalted over natives, wanted the place, on account of his native force of personality and strong character. What right had he to be placed over them? Daniel's character was a perpetual reproof. They were tired of seeing his good deeds and hearing his praise. He stood in the way of their dishonest gains.

Whoseever does well, and is faithfol and true, where others are dishonest and false, must expect to be opposed and hated.

H. The Conspiracy Against Daniel Vs. 49. Having made up their minds to put Daniel out of the way the other officers devised two plans. The first plan was to find some wrongeloing on Daniel's part, of which to accuse him to the king. "They keen microscope of malice," but falled to find any fault. This plan was a complete fallure.

V. Daniel in the Lion's Den .- Vs. 16-18. 16. "They brought Daniel, and cast him into the den of lions." This was according to Oriental custom on the evening of the same day. The story of the den of lions is strictly in keeping with Babylonian usages. Can-Tristram says, "Lions, which though all but extinct in India, and absolutely so in other parts of Asia, are still common in Babylon and Persia, were kept in the parks of great princes as part of their estate." den was probably an open pit, surrounded with a high wall, connected with a cave or covered enclosure. "Thy God , , , he will deliver thee." The king knew so much of what God had done for Daniel in the past, that he encouraged himself and Daniel by the hope of deliverance. He scrutinized his conduct through the felt sure that God would not forsake so faithful a servant.

17. "Stone . . . laid upon the mouth of the den." The mouth was the door through which the animals were put into the den. "A great stone is still an ordinary way of securing a doorway in the East, as we know it was for closing tombs." "Scaled it with his own signet.". "If the access to the lions' den was arranged like that of a sepulcher, a bar would be fixed across the front of the stone fastened to either side of the doorway by though, the knotting of which was scaled with wax stamped with a sigparty could tamper with it.

18. The king spent a misorable night, "fasting" either as an appeal to his god, or because he was too sail to "Neither were instruments of musick," or, as in margin, "dancing sirfu." He refused his accustome SOTTOW.
